---

Mr. Lopez,

EPA attorney Mr. Ed Quinones has spoken with Ms. Ruth Takeda in Austin regarding the Ergon Event. She stated that TCEQ had received a response to an information request sent to Ergon from TCEQ, and that you folks were willing to share Ergon's response with us. If possible, we would like to be able to view the entire response, including the CBI. As you mentioned in our phone conversation this day, a secure TCEQ site where we could log in and download the response would be good.

I will be out on a field investigation through Thursday of next week, but if I could contact you on Friday, January 20, and set everything up, it would be most appreciated.

Thanks,

David Eppler
